Our Comprehensive Vitality Packages have been created for one reason; to give people the most effective, synergistic and scientific approach to achieve their wellness goals.

Each package consists of three products. Two of these products set the foundation for healthy cells. They do this by improving the cells potential which maximizes nutrient transport, then offering the cells a full spectrum of vitamins, minerals and whole food complexes.

A third product will address a particular issue such as: Blood Sugar / Weight Loss / Muscle, Bone and Joint / Anti-Aging / Digestion / Circulation or Inflammation. These condition specific supplements work on a cellular level with your body's own mechanisms to effectively help you attain your wellness goals.
